ABOUT ME

I am a motivated and eager-to-learn freshly graduated junior fullstack developer with solid knowledge in front-end and back-end software development. I gained experience in different programming languages and technologies like HTML5, CSS, JavaScript, React, NodeJS, PHP, and MySQL. To broaden my skills, I built a server that I run at home, where I upload my portfolio projects. I am ready to apply what I have learned and improve my knowledge further in a dynamic developer team.

SKILLS

Skill	Level	Skill	Level
React	●●●○○	Php	●●○○○
Node js	●●●○○	Python	●●○○○
Javascript	●●●●●	C#	●●○○○
HTML	●●●○○	MySQL	●●●○○
